EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edward P. Dutkiewicz on September 21, 2004.

The application has been amended as follows:

- 1) In claim 2, line 9: The phrase --substantially noncircular-- has been inserted before the term "apertures".
- 2) In claim 2, line 10: The phrase --and extending from said top surface to said bottom surface-- has been inserted after the term "block".

2. The following is an examiner's statement of reasons for allowance: The examiner respectfully asserts that none of the prior art, taken either singly or in combination, is seen to teach or suggest the use of a mattress system comprising the particular structural combination of a generally rectilinear block formed from an elastomer having horizontal and parallel flat top and bottom surfaces and including *a plurality of substantially noncircular apertures of various shapes and sizes extending from the top surface to the bottom surface of the block* and a plurality of inserts fabricated from the same material as the block, having a size and shape corresponding

to the apertures and each including parallel flat top and bottom surfaces as specifically recited in Applicant's independent claim 2. With regards to the prior art, Lenyo '762 discloses the use of an elastomeric block having a plurality of apertures of a plurality of sizes and shapes extending therethrough; however, all of these apertures are substantially circular in order to accommodate infants' heads of varying sizes. Moreover, the Satto '449 reference discloses the use of a foam-like cushion having a pair of apertures of different sizes and shapes formed therein; these apertures do not extend from the top surface of the cushion to the bottom surface as claimed by Applicant. Since all of the previous claim objections have also been fully overcome (thereby placing the only other independent claim in full condition for allowance), the examiner respectfully asserts that the application is currently in full and proper condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert G. Santos whose telephone number is (703) 308-7469. The examiner can normally be reached on Tues-Fr and first Mondays, 10:30 a.m. to 8:00 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Heather C. Shackelford can be reached on (703) 308-2978. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
